National indicator framework

R.O.C. Principles:

**Relevant**
To the *policy* interventions, across sectors and regions

**Objective**
Clear linkage between *targets* (in all plans) and the indicators

**Comprehensive**
Full coverage of the *policies*, and *people*
Are indicators R.O.C.? Are targets SMART?

**SMART**
- Specific
- Measurable
- Attainable
- Relevant
- Time-bound

Who is responsible?

Planning/SDG body with technical support from NSO
What to do at the national level?

• Develop national comprehensive monitoring and indicator framework
  – key driver for the work of the NSS

• Compile and use indicators for progress assessment
  – NSO lead

• Strengthen data and statistics
  – statistical planning and development processes as a component of national development plans
Key questions to answer

Institutional Environment

any institutional mechanisms in place to make sustainable development decisions?

Role of the NSO in that mechanism?
- Involved in target setting? How about in M&E?

Role of the NSO in monitoring and reporting on progress towards achieving national sustainable development priorities?
